Sub: Consent for joining as a Collaborative Institute with Department of Geography for an International Conference entitled "Sustainable Water Resources Management under Changed Climate" to be held during March 13th -15th, 2020 at Jadavpur University

Respected Madam,

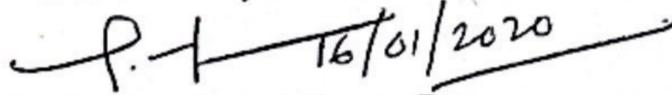

With New Year greetings I am pleased to inform you that the School of Water Resources Engineering, Jadavpur University is going to organize an "International Conference on Sustainable Water Resources Management under Changed Climate" collaborating with National Institute of Technology, Durgapur. The date of the conference will be from 13th March 2020 to 15th March 2020 on the back drop of World Water day on 22nd March to increase and create a mass awareness keeping in view of the global water crisis under climate change scenario. National Institute of Technology (NIT), Durgapur is working on DST-Govt. of India sponsored BRICS project in the thematic area "Water Resources and Pollution Treatment" in collaboration with China and Russia as well as BRICS Network University programme in collaboration with Brazil, Russia, South Africa and China and will collaborate in this conference as Joint-Coordinators to make it an International concern. As such we are inviting speakers from China, Russia and other BRICS partners to deliver lectures as keynote speaker on water related issues as it will enrich knowledge and interaction among the participating students and research scholars all over India. It may please be noted that one of your colleague is being an alumni of School of Water Resources Engineering, Jadavpur University and as geography is an interdisciplinary subject with water resources management is a challenge issue at regional and global scale. The venue of the conference will be at Jadavpur University and will continue for three consecutive days as stated above. Collaboration of your Department of Geography will also incorporate discussions and lectures on numerous ideas and approaches related to conserve water resources and pollution treatment.

Your kind consent in this regard will be highly solicited as discussed in verbal mode to join as collaborative institutes make the conference successful at a global concern.

Madam, May I include your name as a patron in the aforesaid conference.

Looking forward to your kind consent and necessary action at the earliest.

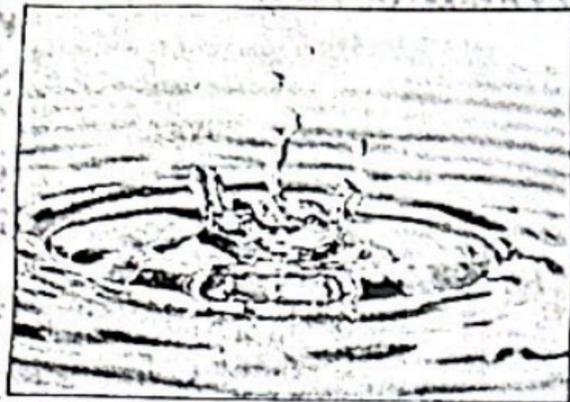

Thanking You
Yours Sincerely

ABOUT THE CONFERENCE

India is facing one of its major and most serious water crisis. After two consecutive years of weak monsoons, 330 million people — a quarter of the country's population — are affected by a severe drought. With nearly 50 per cent of India grappling with drought-like conditions, the situation has been particularly grim this year in western and southern states that received below average rainfall. For economic efficiency and environmental sustainability, water must be treated and supplied according to usage. It is in this backdrop that 1st International Conference will be organized. The conference will see convergence of renowned water resources experts and research scholars from various parts of India and will deliberate and discuss on various water related issues. The conference will provide an interactive platform for enormous brainstorming and sharing path breaking ideas for sustainable water resources management.

MAJOR THEME

- Water Scarcity Challenge Ahead
- Surface and Ground Water Management
- Extreme Climate Event-Drought, Flood and Cyclone
- Water and Society
- Environment, Sustainability & Development
- Water and Ecosystem
- Water Supply and Treatment
- Wastewater Treatment Technology

ABOUT THE INSTITUTE

School of Water Resources Engineering Jadavpur University: A center for Water Resources Engineering started functioning as an interdisciplinary group in R & D activities in June, 1983 after the appointment of a Professor of water resources engineering. The center was associated with the Departments of Civil, Mechanical, Electrical and Chemical Engineering and Geological Sciences. The school has national and international links with renowned universities and research organizations.

Women's College Calcutta: Women's College Calcutta was founded on 2nd July 1937, by a group of devoted scholars under the guidance of Dr. D.L De with a view to advancing the cause of higher education among women's. Number of subjects are taught for both in graduate and post graduate level.

National Institute of Technology, Durgapur: The NIT Durgapur was established in 1960 under an act of the Parliament of India as one of the eight such colleges as cooperative venture between the Govt. of India and the Govt. of West Bengal.

International Conference
On
Sustainable Water Resources Management under Changed Climate
(13th-15th March, 2020)

Theme

1. Water Scarcity Challenge Ahead

- River Basin Management
- Water Conservation and Management
- Rain water harvesting
- Hydrological and Hydro geological investigation and modelling
- Consumptive Water Use in different Sector (Agriculture and Industry) etc.
- Geological and Hydro-Geological Investigation

2. Surface and Ground Water Quality and Management

- Groundwater Technology for Hazardous Contamination
- Groundwater Potential and Recharging
- Advanced Water Treatment and Technology
- Surface and Ground Water Interaction
- Surface and Ground Water Available Under Changed Climate
- Surface and Ground Water Quality
- Ground Water Treatment and Technology

3. Extreme Climate Event-Drought, Flood and Cyclone

- Drought and Flood Management
- Impact of Climatic Hazard on Water Resource
- Salinity Intrusion
- Hydro- Dynamic Study on Coastal Hazards

4. Water and Society

- Water Conservation and Role of Women
- Water, Health and Livelihood Issue
- Community based Water Management
- Rainwater Harvesting

5. Water and Ecosystem

- Forest Hydrology
- Wetland Hydrology
- Water, Soil and Plant Relationship
- Sediment Transport and Mechanism

6. Water Supply and Treatment

- Rural and Urban Water Supply
- Safe Water Supply
- Advanced Water Treatment and Technology

- Water Safety and Security
- Reject Management

7. Waste Water Treatment Technology

- Waste Water Utilization
- Energy Harvesting through Wastewater
- Reuse and Recycling of Wastewater
- Advanced Waste Water Treatment
- Sludge Management

8. Environment, Sustainability and Development

- Ecological Flow
- Water Policy and Water Economic
- Sustainable Development
- Environmental Management
- Energy, Utilization and Environment
